Glueless installs include an elastic for extra security, and any other necessary adjustments to help your wig sit better. We will also apply a lace holding gel to prevent the lace from lifting. The gel is removable with water and can be taken off same day or 1-2 days after.

Glue installs are for clients who wish to keep their wig installed for 1-2 weeks, provided the proper care and maintenance tips are followed. This glue is sweat-proof and water resistant so you are able to engage in multiple activities without having to worry about your wig slipping. Direct contact with water must still be avoided. The glue is removable with rubbing alcohol or lace glue remover available for purchase.

Wig Make

Use Bundles	R 500
Remake Wig	R 600

Change the Lace

	2hrs
Wig made by The Don	R 300
Wig made elsewhere (Remake Wig)	R 600

Changing the lace of a wig made elsewhere is the same cost as Wig Make as the whole wig needs to be remade. Most pre-existing wigs are not constructed well enough to only remove the lace without some of the wig coming apart.

Includes:

Wash
Styling
Cut

Excludes:

Lace
Customisation
Treatment

Prices for Customisation, Wash and Treatment can be found further down the pricelist. Turnaround time is 3-4 days. A booking must be made to be able to drop your hair off for the service. Lace frontals and bundles will be available for purchase from the end of April 2022.

A head measuring guide will be provided upon booking to ensure a perfect fit. Sizing alterations on the fault of the client will be an additional charge.
